

## SPECIFICATIONS

### Cushion Station™

Product Number 370 (without holes)

Product Number 371 (with holes)

#### Rubber

**Type:** Nitrile Rubber High density closed cell foam (10% recycled content)

**Thickness:** 7/16"

**Durometer:** 50 to 55

#### Testing

- Passes Flammability Standard DOC-FF-1-70
- Static Dissipative
- ASTM C1028-96 Static Coefficient of Friction: Dry - .94      Wet = .69
- Anti-microbial treated for lifetime protection against odors and degradation
- Grease and Oil proof
- Can be autoclave sterilized
- Welding safe
