Conformable Anti-Slip Grit Tape

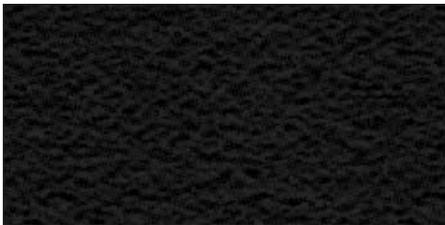

Conformable Anti-Slip Grit Tape - perfect for uneven areas

Our conformable aluminum foil backed high traffic anti slip tape conforms to most irregular surfaces like tread plate metal flooring, heavily textured surfaces, stair nosings. Our conformable foil backed grit tape resists lifting and flagging better than conventional grit tape. It has our 60 grit aluminum oxide texture and an aggressive adhesive system making it a very suitable all around choice for many different surfaces.

- Ideal for difficult or irregularly-contoured areas, such as “diamond-tread” plates
- The foil backing allows the black anti-slip surfacing to be hammered into shape for a perfect fit.
- Can be used on factory walkways, ladders, construction equipment, trucks, ships and railways.
- Suitable for indoor and outdoor applications.
- Not suitable for submerged applications.
- Adhesive: Acrylic Solvent Adhesive.
- Carrier: Aluminum Foil (2 mil) with black Aluminum Oxide 60 Grit.

Minimum application temperature is 50°F (10°C).

Available in black only.
