

TAPE PRODUCTS TECHNICAL DATA

REGULAR CLEAR REMOVABLE TRANSFER TAPE

DESCRIPTION:

A low tack adhesive on a differential silicone coated liner. The liner is a densified paper that affords an easy release from the adhesive film.

PHYSICAL CHARACTERISTICS:

Adhesive Thickness:.....1.0 MILS (+/- 0.2 MILS)
Liner Thickness:.....2.4 MILS (+/- 0.2 MILS)
Total Product Thickness:.....3.4 MILS (+/- 0.4 MILS)

TYPICAL TEST DATA:

180 Degree Peel (PSTC #3).....60 grams/inch
Loop Tack.....600 grams/square inch

APPLICATIONS:

This product is commonly applied to mailers, business forms and labels that are adhered to numerous surfaces. It is used when clean removal from a surface is required. Clean removal is dependent on the base material to which the tape is laminated.

APPLICATION CONDITIONS:

40 F - 105 F
Surface must be clean and dry

SERVICE CONDITIONS:

0 F - 140 F

STORAGE CONDITIONS:

50% Humidity at 77 F
